CLERK, U.S. DISTRICT COURT

To Whom This may Concern:
I am writing this letter in regards to my situation concerning my disability. I am 59 yrs old, I have recently went to the doctor and received injections in my knees and in my hands due to the pain I was having. I needed this done also so that I will be able to work on a job, I am not sure how long the injections will last for me, but for now this helps me to be able to work using my hands and standing so I can pay my rent, and everyday living needs. Although I am very disappointed in the unfavorable decision from the judge, I feel that he did not consider or even know the pain and frustration I am enduring. How could he tell me that I can do telemarketing jobs, I do not think he even know what telemarketing jobs consists of you do use computers, and he don't know what my body can do. I do not understand why he think I am not entitled to disability, when I have worked starting at the age of 16 up until my late 50's doing the kind of work

I enjoyed doing and now that I can
no longer do this type of work any more
because I have used my hands and legs for
so long and so much that I cannot work
as required to hold a job. Would you please reconsider
